

## **Wings Over Illawarra 2020 GA Precinct.**

In 2020 Wings Over Illawarra will incorporate a General Aviation Precinct featuring static aircraft displays along with industry exhibitor sites for aviation organisations, suppliers, manufacturers and service providers.

The introduction of the GA Precinct will provide the aviation community with a GA/RA industry event alongside Australia's premier annual airshow, while showcasing "grass roots" aviation to the general public and hopefully inspiring new members.

We would greatly appreciate it if you could promote industry participation in this event to your members through your EDMs and other channels.

We are doing our best to remove any obstacles that may hinder industry involvement in the event, and strongly believe that with industry support, Wings Over Illawarra can be a great event for the RA/GA community.

We appreciate that many of those wishing to fly-in to the event will have last light issues at that time of the year, and so to make things easier, we have decided to close out the air display and lift the TRA at approximately 16:00, considerably earlier than previous years.

In addition, we have now been successful in gaining approval for underwing camping in the large aircraft parking area, the paddock south west of the runway intersection. Pilots may choose to camp overnight and depart the following morning, prior to the TRA beginning at 10:00 if departing on Sunday.

The underwing camping area will include toilet and shower facilities along with an undercover area with tables and chairs, power, lighting and water. The rotary Club of Wollongong will be offering dinner and breakfast by way of a BBQ Buffet in the evenings and bacon and egg rolls in the mornings, all at very reasonable prices. There will also be a bar available to those camping overnight and a fire pit or two with seating around.

There is a small fee of \$20 per person per night for underwing camping, this is purely to assist us with some of the costs of the infrastructure required.

We are also extending a 25% discount on ticket prices to aviation industry members in the hope of encouraging industry members to attend and help us grow the GA precinct component of Wings Over Illawarra.

We ask that anyone planning on flying into the event register their details and planned length of stay through the form on our website so we can ensure we have sufficient space available, and Rotary get an indication of numbers for catering purposes.

We are working with the industry organisations to help promote the event to the aviation community and are offering GA Precinct exhibitor sites to aviation industry exhibitors free of charge. We have plenty of space available and are encouraging as many industry exhibitors as possible to attend.

Exhibitors will need to provide their own marquees, tables, chairs, etc. however we are working with our marquee supplier, South Coast Party Hire, to provide quality commercial marquees and equipment to exhibitors at discounted

prices. Marquees ordered through South Coast Party Hire will be setup prior to the exhibitor's arrival, making for an easy bump-in.

After completing the fly-in registration form on the website, attendees will be presented with links to purchase camping passes and industry discounted tickets.

We are happy for industry members to use the discounted ticket link for their families and friends; however, we have purposely not made the link public for obvious reasons, and would very much appreciate it is the link is not posted on any public forums.

Should you wish to include links to the fly-in registration form, camping passes and industry discounted tickets in your EDMs, please use the following:
